🚨 Burglar Alarm Systems & Intrusion Detection Solutions

Reliable Burglar Alarm Systems for Homes, Businesses & Industries

We provide advanced burglar alarm systems designed to detect unauthorized entry and alert occupants or security teams instantly. Our intrusion detection solutions help prevent theft, vandalism, and security breaches while enhancing overall safety.

Our burglar alarm systems comply with security standards and are suitable for commercial buildings, industrial facilities, residential complexes, hospitals, hotels, warehouses, retail stores, and IT parks.

With proven expertise in burglar alarm system design, installation, testing, commissioning, and maintenance, we help organizations secure their premises and respond quickly to security threats.

Burglar Alarm System Services We Offer

🚨 Burglar Alarm System Design & Installation
We design customized intrusion detection systems based on site layout and security risk assessment. Our installation services include:
• Wired Burglar Alarm Systems
• Wireless Burglar Alarm Systems
• Perimeter Security Alarm Systems
• Door & Window Intrusion Detection

Each system is configured to provide fast alerts and reliable intrusion detection.

🚨 Burglar Alarm Equipment Supply
We supply high-quality burglar alarm components, including:
• Motion Sensors (PIR Sensors)
• Door & Window Contact Sensors
• Glass Break Detectors
• Control Panels & Keypads
• Sirens & Strobe Lights

All equipment is sourced from trusted manufacturers and ensures dependable performance.

🚨 Burglar Alarm AMC & Maintenance
To ensure continuous protection, we provide:
• System Testing & Commissioning
• Annual Maintenance Contract (AMC)

• Sensor Calibration & Health Checks
• Fault Detection & Repairs
• System Expansion & Upgrades

Our AMC services ensure your security system remains operational 24/7.

Types of Burglar Alarm Systems

Wired Burglar Alarm System
Reliable and stable system suitable for permanent installations.

Wireless Burglar Alarm System
Easy-to-install solution ideal for homes and retrofit projects.

Perimeter Security Alarm System
Provides early intrusion detection at boundary walls, fences, and restricted areas.

Smart Burglar Alarm System
Supports mobile alerts and remote monitoring for enhanced security.
