

# **Fire Safety Training & Emergency Preparedness Solutions**

## **Professional Fire Safety Training for Homes, Businesses & Industries**

We provide comprehensive fire safety training programs designed to educate employees, residents, and occupants on fire prevention, emergency response, and life safety practices. Our fire safety training solutions help organizations reduce fire risks, comply with safety regulations, and ensure preparedness during fire emergencies.

Our training programs comply with national and international fire safety standards and are suitable for commercial buildings, industrial facilities, residential complexes, hospitals, schools, hotels, warehouses, construction sites, and IT parks.

With experienced fire safety professionals and practical training methods, we help organizations build a strong fire safety culture and emergency-ready workforce.

---

## **Fire Safety Training Services We Offer**

### **Basic Fire Safety Awareness Training**

This program focuses on educating participants about fire hazards, prevention methods, and safe behavior. Training covers:

- Understanding fire triangle & fire behavior
- Common causes of fire
- Fire prevention techniques
- Emergency evacuation procedures

### **Hands-On Fire Extinguisher Training**

Practical training to ensure participants can safely operate fire extinguishers during emergencies, including:

- Identification of fire classes
- Selection of correct fire extinguisher
- PASS technique (Pull, Aim, Squeeze, Sweep)
- Live fire mock drills

### **Emergency Evacuation & Mock Drill Training**

We conduct structured evacuation drills to test preparedness and response time:

- Emergency exit identification
- Assembly point management
- Fire warden roles & responsibilities
- Coordination with emergency services

### **Advanced & Industry-Specific Fire Safety Training**

Customized training programs based on site risk assessment, including:

- Industrial fire safety training
  - Electrical fire safety
  - High-rise building fire safety
  - Construction site fire safety
  - Hospital & hotel fire safety procedures
- 

## **Types of Fire Safety Training Programs**

### **Basic Fire Safety Training**

Ideal for offices, residential buildings, schools, and commercial establishments to build basic fire awareness.

### **Industrial Fire Safety Training**

Designed for factories and plants handling hazardous materials, machinery, and electrical equipment.

### **Fire Warden / Emergency Response Team Training**

Advanced training for nominated fire wardens responsible for managing emergencies and evacuations.

### **On-Site Customized Fire Safety Training**

Tailored programs based on building layout, occupancy, and specific fire risks.
