

# **Fire Sprinkler Systems & Automatic Fire Suppression Solutions**

## **Reliable Fire Sprinkler Systems for Homes, Businesses & Industries**

We provide advanced fire sprinkler systems designed to automatically detect and suppress fires at an early stage, significantly reducing fire spread, damage, and risk to life. Our fire sprinkler solutions comply with national and international fire safety standards and are suitable for commercial buildings, industrial facilities, residential complexes, hospitals, hotels, warehouses, factories, shopping malls, and IT parks.

With proven expertise in fire sprinkler system design, installation, testing, commissioning, and maintenance, we help organizations maintain compliance, enhance safety, and ensure uninterrupted operations during fire emergencies.

---

## **Fire Sprinkler System Services We Offer**

### **Fire Sprinkler System Design & Installation**

We design customized fire sprinkler systems based on building layout, occupancy type, and fire risk assessment. Our services include installation of:

- Wet Pipe Fire Sprinkler Systems
- Dry Pipe Fire Sprinkler Systems
- Pre-Action Fire Sprinkler Systems
- Deluge Fire Sprinkler Systems

Each system is engineered to deliver quick activation, adequate water discharge, and effective fire control.

### **Fire Sprinkler Equipment Supply**

We supply and install high-quality fire sprinkler components, including:

- Automatic Sprinkler Heads
- Control Valves & Alarm Valves
- Flow Switches & Pressure Gauges
- Fire Sprinkler Piping & Fittings
- Fire Pumps & Water Storage Tanks

All equipment is sourced from approved manufacturers and complies with fire safety regulations.

### **Fire Sprinkler Testing, Commissioning & Maintenance**

Regular testing ensures system reliability and performance. Our services include:

- Fire Sprinkler System Testing & Commissioning
- Annual Maintenance Contract (AMC)

- Flow & Pressure Testing
- Valve Inspection & Servicing
- System Modification & Expansion

Our maintenance programs ensure your sprinkler system remains fully operational and compliant.

---

## **Types of Fire Sprinkler Systems**

### **Wet Pipe Fire Sprinkler System**

The most common system where pipes are always filled with water. Ideal for offices, residential buildings, and commercial spaces.

### **Dry Pipe Fire Sprinkler System**

Used in areas exposed to freezing temperatures. Pipes are filled with air or nitrogen until activation.

### **Pre-Action Fire Sprinkler System**

Recommended for data centers and sensitive areas. Requires dual confirmation before water release.

### **Deluge Fire Sprinkler System**

Designed for high-hazard areas such as chemical plants and power stations, where all sprinkler heads activate simultaneously.

---

## **Why Choose Our Fire Sprinkler Solutions?**

- ✓ Certified Fire Protection Engineers
- ✓ NBC, IS & NFPA Standards Compliance
- ✓ High-Quality Fire Sprinkler Equipment
- ✓ Customized System Design
- ✓ Timely Project Execution
- ✓ Reliable AMC & Technical Support

We focus on rapid fire suppression, life safety, and long-term system reliability.

---

## **Industries We Serve**

- Commercial Buildings
- Industrial Plants & Manufacturing Units
- IT & Corporate Offices

- Hospitals & Healthcare Facilities
  - Hotels & Hospitality
  - Educational Institutions
  - Warehouses & Logistics Centers
  - Residential Apartments & Villas
- 

## Fire Sprinkler System Compliance & Standards

Our fire sprinkler systems comply with:

- National Building Code (NBC)
- IS 15105 & Relevant IS Standards
- NFPA 13 Guidelines
- Local Fire Authority Regulations

We assist with fire NOC approvals, inspections, and compliance documentation.

---

## Frequently Asked Questions (FAQ)

### **Are fire sprinkler systems mandatory?**

Fire sprinkler systems are mandatory in many commercial, industrial, and high-rise buildings as per fire safety regulations.

### **Do fire sprinklers activate all at once?**

No. Only the sprinkler head exposed to fire heat activates, minimizing water damage.

### **Do you provide fire sprinkler AMC services?**

Yes, we offer comprehensive AMC services including inspection, testing, and repairs.
